Project Overview

Tell us a little about your project. What are the main objectives of the project, and who will benefit from it?

This project is a partnership between the Rotary Club of Redondo Beach, California, the Rotary Club of Suna Migori, Kenya, and the County Government of Migori County, Kenya.

The town of Migori Kenya has no public library.

The 150,000 people in and around Migori Town have little or no access to books and limited access to the internet due to the high cost of internet access. The school libraries, where they exist, are poorly stocked with books and those are limited to school books, often in poor condition.

The county of Migori has obtained a long term lease on a former private college campus located adjacent to Downtown Migori town. There is a large space available on this campus to establish a public library.

In this project, Rotary will partner with the government and provide approximately 30,000 books from the USA, approximately US\$5,000 to purchase Kenyan published books and funds for furniture, computer stations and other items for the library. This project will fund the purchase of computer stations for a new Tech Center that will establish a center to provide public access to computers and internet access to the public in Migori town. The new library is located 5 minutes walk from the central market in Migori. It will be open to everyone.

An important part of this project is to create public awareness of what a lending library is and how it functions. Most of us starting using a lending library when we were in primary school. People in Migori have NEVER seen a public library. There will need to be a public outreach and education for people about the basic functions of a library; how to get and use a library card; responsibilities for loaned material; using a computer in a public space, etc. The public outreach will be done by library staff. This grant will fund outreach materials and media time so that they can reach out to the public about the library.

The books will be provided and shipped to Mombasa port at no cost to the project by Books for the World. This is a Rotary affiliated Non-profit. The GG will be responsible for customs clearance etc and shipping the

containers of books to Migori.

The shipping container will become the property of the Rotary club of Suna Migori when it is delivered to Kenya. When the books have been removed, the RC of Suna Migori will determine the best use that can be made of the container.

This project has a comfortable contingency. In the event that this is not all required, excess funds will be used for the purchase of more Kenyan books and computer stations. These and all other purchases will be made in consultation with the library staff.

The Rotaract Clubs of Migori and Rongo University will be active participants in this project. They will assist in offloading and sorting the books in Migori. They will also assist with the painting of murals and branding on the library walls.

Sustainability

Project planning

Describe the community needs that your project will address.

The lack of access to books and the internet in Migori town and villages of Migori County.

How did your project team identify these needs?

The Local Rotarians have a knowledge of the community. Rotarians have had discussions with teachers and community members, elected representatives, including the county Governor, Member of the County Assembly and the national Member of Parliament for this area. All of these expressed a need for a public library.

How were members of the benefiting community involved in finding solutions?

The staff of the county Department of Education, Library staff, local Member of County Assembly and Local Rotarians are all members of the local community that will benefit. They have all been involved in discussions about planning and developing a library for the community. This is a well known long standing need.

How were community members involved in planning the project?

The staff of the county Department of Education, Governor's office, County Library staff, local Member of County Assembly and Local Rotarians are all members of the local community. They have all been involved in discussions about planning and developing a library for the community. There have been regular meetings between the Rotarians and these people. The elected representatives and library staff all expressed the need for books that is unresolved due to budget restraints.

Project implementation

Summarize each step of your project's implementation.

Do not include sensitive personal data, such as government ID numbers, religion, race, health information, etc. If you include personal data, you are responsible for informing those whose personal data is included that you are providing it to Rotary and that it will be processed in accordance with Rotary's Privacy Policy.

#	Activity	Duration
1	Order and shipment of books	4 months
2	Procurement of furniture	4 months
3	Clearing container of books and transport to Migori	1 month
4	Procurment of Kenyan published books	2 months
5	Final Report	3 months
6	Total duration after funding is approved	10 months
7	Community outreach and education	3 months
8	Monitoring and Evaluation	3 months

Will you work in coordination with any related initiatives in the community?

Yes

Briefly describe the other initiatives and how they relate to this project.

This is a partnership with the county government who will be providing the building, staff and ongoing funding for operations.

Please describe the training, community outreach, or educational programs this project will include.

Library staff will provide outreach training to the public on getting and using a library card, responsibilities of a library user, searching for a book, etc. This project will provide funds for printing materials and media notices for this outreach. Publicity will go into the local media as well as into the local schools.

How were these needs identified?

Discussions with the librarians and other county staff.

What incentives (for example, monetary compensation, awards, certification, or publicity), will you use, if any, to encourage community members to participate in the project?

There will be a public outreach to inform the public that the library is "open for business". The Member of Parliament and other public figures will attend the opening of the library. The library will be publicized in the schools in and around Migori both with written notices and in the local media..

List any community members or community groups that will oversee the continuation of the project after grant-funded activities conclude.

The county government will provide ongoing funding for the operation of the library.

Budget

Will you purchase budget items from local vendors?

Yes

Explain the process you used to select vendors.

With the exception of the donated books and shipping containers, everything purchased for this project will be purchased within Kenya. The Kenyan books and computers will be purchased in Nairobi. Bookshelves etc will be fabricated locally in Migori if possible.

For furnishings and computers, bids will be obtained from a minimum of 3 Kenyan vendors. These will be reviewed by the procurement committee of the Rotary Club. The vendor with the lowest cost for a qualified bid will be selected.

For trucking of the containers, negotiations are being held with the available trucking companies.

For purchase of Kenyan published books, the books will be purchased from the Kenyan publishers as directed by the library staff.

Did you use competitive bidding to select vendors?

Yes

Please provide an operations and maintenance plan for the equipment or materials you anticipate purchasing for this project. This plan should include who will operate and maintain the equipment and how they will be trained.

The materials being acquired or purchased are books, computers bookshelves and other furniture.

Books do not need an O&M manual. The library staff know how to take care of them.

Computers will come with manuals. The library system has computer technicians knowledgeable in repairing and maintaining computers.

We do not plan on providing an O&M plan as this does not appear to be appropriate for this project.

Describe how community members will maintain the equipment after grant-funded activities conclude. Will replacement parts be available?

The library staff will maintain the library building and operate the library.

Replacement books etc are available.

If the grant will be used to purchase any equipment, will the equipment be culturally appropriate and conform to the community's technology standards?

Yes

Please explain.

Education and learning are highly valued in Kenya. Providing a library is appropriate to the community values. The technology and books all conform to the community standards.

After the project is completed, who will own the items purchased by grant funds? No items may be owned by a Rotary district, club, or member.

The books, furniture etc. will be the property of the County Library.

Funding

Does your project involve microcredit activities?

n/a

Have you found a local funding source to sustain project outcomes for the long term?

Yes

Please describe this funding source.

The County will provide staff and operating costs for the library.

Will any part of the project generate income for ongoing project funding? If yes, please explain.

no

Personal data provided to TRF may be transferred to Rotary service providers (for example, affiliated entities) to assist Rotary in planning Grant-related activities. By applying for a grant, the Sponsor may receive information about the Grant and supplementary services via email. For further information about how Rotary uses personal data, please contact privacy@rotary.org. Personal data provided to TRF or collected on this form is subject to [Rotary’s Privacy Policy](#).

17. The Sponsors agree to share information on best practices when asked, and TRF may provide their contact information to other Rotary members who may wish advice on implementing similar activities.

18. The Sponsors will ensure that all individuals traveling on grant funds have been informed of the travel policies stated in the Terms and Conditions and have been made aware that they are responsible for obtaining travel insurance.

19. To the best of our knowledge and belief, all relationships between grant committee members, district officers, and other members of the sponsor clubs or districts and any scholarship recipients, cooperating organizations, project vendors, or other individuals or organizations that will benefit from the grant have been disclosed in this application. Except as disclosed here, neither we nor any person with whom we have or had a personal or business relationship will benefit or intends to benefit from Rotary Foundation grant funds or have any interest that may represent a potential conflicting interest. A conflict of interest occurs when someone is in a position to make or influence a decision about a grant or scholarship that could benefit them, their family, their business, or an entity in which they serve in a paid or voluntary leadership or advisory position.
